

# Earthquake

40 Below Summer

Here's a face with no name  
Just a borrowed forgotten phrase  
Unchanged, ingrained  
By the sign on the grave  
By the sound of the falling blade  
We wave goodbye

So just wrap your arms around me  
Never let me go  
Wrap your you arms around me  
Can you hold me close  
Wrap your you arms around me  
Tidal Wave will fall  
Wrap your arms around me  
And hold me together

This is cracked and estranged  
Something's fractured and growing inflamed  
It's feeding on rage  
We are turning the page  
We are shaking the ground beneath our faith  
It's time

So just wrap your arms around me  
Never let me go  
Wrap your you arms around me  
Can you hold me close  
Wrap your you arms around me  
Tidal Wave will fall  
Wrap your arms around me  
And hold me together

We are lost  
We are a pantomime  
We are a hologram frozen here in time  
We are impurity and insecurity  
We have no choice just drop to our knees and pray  
Before it's quiet (2x)  
Wrap your arms around me (2x)

So just wrap your arms around me  
Never let me go  
Wrap your you arms around me  
Can you hold me close  
Wrap your you arms around me  
Tidal Wave will fall  
Wrap your arms around me  
And hold me together

Wrap your arms around me (4x)  
And hold me together
