40 Below Summer

Just like desire  
Won't disappear  
With everything behind you  
There's no more tears  
And now the daylight's ending  
We'll surely make it clear

Just like the hand  
Over your screams  
This is your future  
That's swallowing your dreams  
And as the sunlight exits  
You will believe in this

Just lie  
Lie down and take it  
Don't you say you won't  
Lie down and take it  
Just lie  
Lie down and take it  
Don't you fucking move  
Lie down and take it

Nothing can stop what has begun  
And you can't change what has been done  
And now you belong to me  
Belong to me (2x)

Just like the heel  
Upon your spine  
Without wanting  
You are stripped of all your pride  
And now the world stops to wait  
You're frozen here in time

And now the scars  
Will never fade  
They stretch across your legs  
With everything you gave  
Now when you hear my name  
You'll always be afraid

Just lie  
Lie down and take it  
Don't you say you won't  
Lie down and take it  
Just lie  
Lie down and take it  
Don't you fucking move  
Lie down and take it

Nothing can stop what has begun (You cannot keep me away)  
And you can't change what has been done  
And now you belong to me  
Belong to me (2x)

Pull the string

It's wrapped around that memory  
Stored in flames  
It's all a game plan  
On your name  
And if I die for you  
It won't be enough to satisfy  
And as I break you  
It won't be enough to pacify  
And when I touch you  
It won't be enough, just one more time  
And when I fuck you  
It won't be enough, it's never enough for me

Just like the web  
I hold the gun  
Waiting for a saviour  
For a god that never comes  
He never heard the screams cos  
You're not the only one

Just lie  
Lie down and take it  
Don't you say you won't  
Lie down and take it  
Just lie  
Lie down and take it  
Don't you fucking move  
Lie down and take it

Nothing can stop what has begun (You cannot keep me away)  
And you can't erase the damage done  
And now you belong to me  
Belong to me (2x)
