

## Step Into the Sideshow

40 Below Summer

Come step up to the plate  
And please allow me to demonstrate  
As you step into the rear of the sideshow bus  
Strap it on cuz it's time to get a head rush  
Twist the cap and tap the bottle  
That's my motto - here it comes full throttle  
Straight up at ya from 40 Below  
Freezing - you're bleeding as you feel the winds blow

Can not stop this, you can not break this, you can not crush this  
Get your ass out the way

I see you shakin cuz the time's up  
wreck that ass with my starting line-up  
Bolos and body blows, hooks and haymakers  
re-animate, suffocate your breath taker  
Kick down your doors - excuse the intrusion  
swift and clean over the execution  
Quick get shot - you're rocked - it'll bend you over  
This is the sideshow, bitch - I thought I told ya

Can not stop this, you can not break this, you can not crush this  
Get your ass out the way

You can't escape the disease of the freeze -  
of the sideshow release - come and bring you to your knees  
This is the last straw - I can't control, I explode  
Now I got you in a choke hold  
You can't try to get off - you'll get lost - you'll get tossed  
when I'm up in your face full force  
You can't try to get passed - you won't last  
It's your ass - when I rip you in half

I know I ignite like a pyro - burn inside so  
Step into the sideshow  
I know - gonna go psycho - might go  
Step into the sideshow  
I know I ignite like a pyro - make em burn when they  
Step into the sideshow  
Gonna cut em in half really tight - so kickin your ass when ya  
Step into the sideshow  
Don't get me hot - you'll catch a right cold - check the eyes, bro  
Step into the sideshow  
Punk suck - gonna front on the ride - motherfucker  
Step into the sideshow  
I'm bringin all the pain straight out
