

Party Time

45 Grave

Oh, she never had a chance
Oh, she was only five years old
Pity the poor darling now
Oh, she never had a chance
Death comes quick for a girl
Victim of a homicide
Cut and beaten brutally raped
The five year old didn't escape
Her mom and friend did her in
Cigarette burns on her arms
From her mom and her friend
He had a whip to hit her again
Do you wanna party? It's party time
We gotta party! It's party time
Oh, she never had a chance

Oh, she was only five years old
She was unaware
Oh, she never had a chance
Her grand mother was sent to jail
Except Veronica, her older sister
She wasn't loved for a dime
Wherever she is it's party time
Do you wanna party, it's party time
We gotta party, it's party time
Do you wanna party, it's party time
We gotta party, it's party time
It's party time
It's party time
It's party time
It's party time

Party time
