Bigger Than Life

Life - sometimes such a bully It sneaks up and knocks us to the ground Life - seems to show no mercy Well It laughs at us and kicks us when we're down

Well I've been there in it's shadow And the time has taught me this If we look over its shoulder We'll see that our god is

Bigger than life Bigger than anything that comes our way Bigger than life Bigger than any problems we might face Our god is so amazing beyond all we can say So hearts of faith take courage come what may He's bigger than life

We, we all have had our bruises When life has led us to a painful place Time and again hasn't our God proven He can handle any struggles that we face

Well he'll be the same tomorrow As he's been through all the years So even when this life's not fair We have no cause to fear

Bigger than life Bigger than anything that comes our way Bigger than life Bigger than any problems we might face Our god is so amazing beyond all we can say So hearts of faith take courage come what may He's bigger than life

Our god is so amazing Beyond all we can say

Bigger than life Bigger than anything that comes our way Bigger than life Bigger than any problems we might face Our god is so amazing beyond all we can say So hearts of faith take courage come what may He's bigger than life
