

## God Rest Ye Merry Gentlemen

4HIM

Light the fire and trim the tree  
It won't be long 'til Christmas Eve  
So close your eyes and make believe  
That dreams really do come true

Manger scenes and mistletoe  
Christmas cards from friends we know  
They'll disappear like melted snow  
At least for another year

Watching children as they play  
Makes you wish that Christmas would stay

All year long just for  
Dreamers like me  
And those who believe  
The joy of the season would stay  
All year long like a December snow  
That just won't let go  
Let's hold on to Christmas this year

Long ago and far away  
Love was born on Christmas day  
A cattle stall, a bed of hay  
A star shining in the sky

Even as the shepherds prayed  
Heaven knew that Christmas would stay

All year long like a December snow  
That just won't let go  
Let's hold on to Christmas this year
