

# Great Awakening

4HIM

Here in this moment in time  
We search for wonders for miracles and signs  
Something to satisfy the hunger in us all  
A human rage from deep within the soul  
Like a machine in pursuit  
On the horizon like a raging fire we move  
Driven by questions in an endless search for truth  
There is a stirring in us, a great awakening begins

I believe there's a mighty power  
I believe it's a latter rain  
I believe there's a move of God  
Calling us all higher  
Oh I believe  
These are the days of the great awakening

More than our hearts can contain  
It is an overflow of God's amazing grace  
Coming to reconcile a world that's lost its way  
Oh, all consuming fire come purify us once again

There's no containing this great move of restoration  
It knows no walls, no boundaries or lines  
Without a doubt I do believe if we'll just get down on our knees  
The latter rain is gonna fall  
It's just a matter of time
