I Know You Now

I looked at faith I almost walked away But I looked again I found the nerve To close my eyes and say the words To ask You in And I heard no heavenly choir No angels in white attire I got no amazing super human omnipresent power But, I know You now I know You now I know You're in my heart I know You now Beyond the shadow of a doubt I know You now I look at peace That once was out of reach And now it's here I read Your word That some believe is so absurd But I hold dear 'Cause You loved me With Your dying breath You saved me When You conquered death You're living in my heart You're the truth And I love to confess But, I know You now I know You now I know You're in my heart I know You now Beyond the shadow of a doubt I know You now Finally I'm understanding Just who You are I feel my life is landing Safe inside Your arms where I belong But, I know You now I know You now I know You're in my heart Yes, I know You now Beyond the shadow of a doubt I know You now In my heart In my soul In my life Now I know I know You now I know You now I know You
