

No Other Reason

4HIM

Here in this heart it's so hard to believe
You're still the one pursuing me
I feel I don't deserve
All that you've given me

Lord I am amazed tell me how can it be
That after all this time you'd still love me
So let me say to you
Thanks for the love you bring

Lord let these words I say
And the praises I sing always be

For no other reason but to love you
For no other reason but to say that you're my god
For no other reason just because,
Just because you are

Lord I confess I am humbled inside
To know such a love, such a sacrifice
That in spite of all you've done
And all the joy you bring

Lord let these words I say
And the praises I sing always be

For no other reason but to love you
For no other reason but to say that you're my god
For no other reason just because,
Just because you are

Hey...hey...hey
Just because you are
Hey...hey...hey
Just because, just because you are
