

## That Kind of Love

4HIM

Happiness in view  
Please let it be true  
How I've waited in line  
Longing for a love  
To come hold this heart of mine  
Promises unkept  
Boundaries overstepped  
Left alone with the hurt  
Feeling like my life  
Couldn't feel much worse

Then I saw the way You saw Me  
As my heart let You come in  
And I know I felt You hold me  
When You told me I could live  
Safe in Your arms  
That's what I want  
That kind of love

Love that will not leave  
Use me or deceive  
One I know I can trust  
Love that will not bring me down  
And always builds me up  
Love that knows my soul  
Shows me where to go  
When all I see is a cloud  
How could this exist as I stood there  
In my doubt

You opened my soul  
With what I'd never known  
At a time when I was so so alone
