

even the deepest wound can heal
i know that now
but only if you to let'em

even a broken heart can beat
i know that now
but only if you let it

we are poisoned by our one fairytales
can't accept the fact that our good plan fails
because we let it

times change people change
times change people change
and so did we

even a broken man can walk
i know that now
but only if you let him

we are poisoned by our one fairytales
can't accept the fact that our good plan fails
and so did we

times change people change (and so did we)
times change people change (and so did we)
now i know
now i go
now for the last time

i give up now

even a sad man can smile
i know that now
because i'm smiling

even a memory can die
i know that now
cuz i forgot you

i forgot you
i give up now
Now i know
Now i go for the last time
i gotta leave tonight
i give up now
