

## Frost

4Lyn

I kiss your lips but there's no warmth  
I look for peace but I just find storm  
I stroke your heart but it just won't melt  
I know I'm seen by you but I'm not felt

Sooner or later we're gonna be on our own  
Alone is better than staying together  
I'm gone...

In your embrace that's where I wanna be  
Holding you close, feels so empty  
I walk these halls but can't feel safe  
And all because you broke a promise you've made...to me

Sooner or later we're gonna be on our own  
Alone is better than staying together  
I'm gone... (3x)
