

# Black Cat

4minute

Watch out! Watch out! I'm ready to break you down  
Watch out! Watch out! I'm ready to break you down

If you place your fingers wrongly, you might get a scar  
If you think of me easily, you might have to swallow your tears  
You are in danger  
(I don't wanna hurt U, please move yourself)  
I'm a sharp heartbreaker  
(I don't wanna get U, please show yourself out)

There's no genuinity, just enjoy it like a joke  
To me, there's no more love (la la la)  
To me, there's no more pain (watch out boy)

I'm a black cat, I'm a black cat  
Oh if you come close, only you will get hurt  
I'm a black cat, I'm a black cat  
Oh if you touch me, only you will be in pain  
If it's a love that's more typical than a drama, then good bye  
You're so ridiculous, don't look back and just get out (get out)

If you come to me fearlessly, you will regret it  
If you try to have me, you will fall deeply for me  
This whisper that you can't deny  
(I don't wanna hurt U, please move yourself)  
I'm a inescapable black hole  
(I don't wanna get U, please show yourself out)

There's no genuinity, I just pretend and spit you out  
To me, there's no more love (la la la)  
To me, there's no more pain (watch out boy)

I'm a black cat, I'm a black cat  
Oh if you come close, only you will get hurt  
I'm a black cat, I'm a black cat  
Oh if you touch me, only you will be in pain  
If it's a love that's more typical than a drama, then good bye  
You're so ridiculous, don't look back and just get out (get out)

With my rough breaths, I make your heart tremble  
Before you get a big scar that says you can't go on without me, watch out ba  
by boy  
Shut up and watch out boy yeah!  
Shut up and watch out boy yeah! (You know what I mean)  
Shut up and watch out boy yeah!  
Shut up and watch out boy yeah! (Yeah)

I'm a black cat, I'm a black cat  
Oh if you come close, only you will get hurt  
I'm a black cat, I'm a black cat  
Oh if you touch me, only you will be in pain  
If it's a love that's more typical than a drama, then good bye  
You're so ridiculous, don't look back and just get out (get out)

Watch out! Watch out! I'm ready to break you down  
Watch out! Watch out! I'm ready to break you down  
Watch out! Watch out! I'm ready to break you down

To me, there's no more love (la la la)  
To me, there's no more pain (watch out boy)

Watch out!
