

Colours of the world

4TET

whiten the smile
we plays the child thats playing
on the meadow wheat this month
now is the time
we have a searching called from heaven
lets come together as one

with love and right
which heart is always coated
with the cuts gives to the world
our different lives
this peace across the ocean
....people never know

don't you wanna don't you
make a brighter day?
there's a choice we are making
we are the colours in the ray
ray

open your mind
take what you've chosen
colour the words to the rainbow
you're black or you're white
just don't become frozen
follow the voice of your heart

will we deny our compromise
white yellow black
to walk around hand in hand?
is this the time
we have the searching called from heaven
lets come together as one

don't you wanna don't you
make a brighter day?
there is choice we are making
we gonna make the brighter day
we are the colors in the ray
ray

open your mind
take what you've chosen
colour the words to the rainbow
you're black or you're white
just don't become frozen
follow the voice of your heart

black or white
white or yellow
we are right
these all colours
black or white
open your mind
take what you've chosen
white or yellow
you're right you're right

don't become frozen
we are right all right
these all colours
