

# Kingdom Of Thyne Illusions

4th Dimension

Another dawn tolls the hour  
I'm still a prey on my mind  
Within this empty kingdom I'll drown...  
Dancing imps, magic tricks, seducing my eyes  
Mindless charade parades in the dark...

(Courage...)

Trust a pure heart

(Borders...)

And choose you path

(Naiads...)

Through springs born of honest tears

Find question marks and answers...

Worlds of shadows and colliding  
Night/Day twisting my real anew  
Kingdom, entropic work of sadness  
High Fate lies subdued...

Tick-tack tick-tack

The sublime hour has gone

Feasting on memories, lone I'll atone...

Wandering shades, harlequins, stray fragments of life

Sweetly torment a bleeding heart...

Worlds of shadows and colliding  
Night/Day twisting my real anew  
Kingdom, entropic work of sadness  
High Fate lies subdued...

Textures warped amid past and future  
Hours frozen in timeless stream  
Kingdom, gate to my real illusions  
Life/Death, Coin's perpetual turn...

(Courage...)

Trust a pure heart

(Borders...)

And choose you path

Walk on through it all

Until your kingdom falls...
