

Empty Wallets

5 Seconds of Summer

Stop digging in your heart 'cause tonight is on me
Tonight is on me
Stop trying so hard is what you said to me
What you said to me

Get too high when I'm high
So we see eye-to-eye, woah-oh
Take the high with the low
And away and away we go

Living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you
Until we die
Dancing on empty wallets
Spend it all on you
Spend it all on you

We got a whole night, won't you live it with me?
Live it with me?
We got our whole lives, but living ain't cheap
Living ain't cheap

Get too high when I'm high
So we see eye-to-eye, woah-oh
Take the high with the low
And away and away we go

Living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you
Until we die
Dancing on empty wallets
Spend it all on you
Spend it all on you

Sugar caught a break
The fluid ain't to blame
For the sugar causing pain

Living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you

I always believed in second chances
I always believed in you
I always believed in second chances
I always believed in you

Living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you
Until we die

Dancing on empty wallets
Spend it all on you
Spend it all on you

Sugar caught a break
The fluid ain't to blame
For the sugar causing pain

Well living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you
