Empty Wallets

5 Seconds of Summer

Stop digging in your heart 'cause tonight is on me Tonight is on me Stop trying so hard is what you said to me What you said to me

Get too high when I'm high So we see eye-to-eye, woah-oh Take the high with the low And away and away we go

Living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you
Until we die
Dancing on empty wallets
Spend it all on you
Spend it all on you

We got a whole night, won't you live it with me? Live it with me? We got our whole lives, but living ain't cheap Living ain't cheap

Get too high when I'm high So we see eye-to-eye, woah-oh Take the high with the low And away and away we go

Living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you
Until we die
Dancing on empty wallets
Spend it all on you
Spend it all on you

Sugar caught a break
The fluid ain't to blame
For the sugar causing pain

Living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you

I always believed in second chances I always believed in you I always believed in second chances I always believed in you

Living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you
Until we die

Dancing on empty wallets Spend it all on you Spend it all on you

Sugar caught a break
The fluid ain't to blame
For the sugar causing pain

Well living our lives
Dancing on empty wallets
Spend it all on you
Spend it all on you
