

# Long Way Home

5 Seconds of Summer

We're taking the long way home  
Taking the long way home

Take me back to the middle of nowhere  
Back to the place only you and I share  
Remember all the memories?  
The fireflies and make-believe  
Kicking back in the old school yard  
Singing songs on our guitars  
This is our reality  
Crazy stupid, you and me

We know this is the way it's supposed to be

So we're taking the long way home  
'Cause I don't wanna be wasting my time alone  
I wanna get lost and drive forever with you,  
Talkin' bout nothing, yeah, whatever, baby  
So we're taking the long way home tonight

We're taking the long way home  
We're taking the long way home  
Taking the long way home

Now we're stuck in the middle of nowhere  
Yeah, you know we took our time to get there  
We're hiding out in a dream  
Catching fire like kerosene  
And you know I'd never let you down  
'Til the sun comes up, we can own this town  
Something like make-believe  
Living in a movie scene

I know this is the way it's supposed to be

So we're taking the long way home  
'Cause I don't wanna be wasting my time alone  
I wanna get lost and drive forever with you,  
Talkin' bout nothing, yeah, whatever, baby  
So we're taking the long way home

Hitting every red light  
Kissing at the stop signs, darling  
Green Day's on the radio  
And everything is alright  
Now we're turning off the headlights, darling  
We're just taking it slow

So we're taking the long way home  
'Cause I don't wanna be wasting my time alone  
I wanna get lost and drive forever with you,  
Talkin' bout nothing, yeah, whatever, baby  
So we're taking the long way home

Hitting every red light  
Kissing at the stop signs, darling  
Green Day's on the radio

And everything is alright  
Now we're turning off the headlights, darling  
We're just taking it slow

We're taking the long way home (3x)
