

## Lavender

## 50 Foot Wave

Lavender lips on a full, sore mouth  
Where's the parade I asked his sleepy face

But my lazy little shadow stayed asleep in bed  
Climbed another tree, an altogether different tree

And you stayed so close beside me  
Purring like a pussy

I watched the muddy eddies swirl  
I swing and swing and watch the water clean

If my wishes were whores then beggars would ride  
With Billy bandy knees I watch the water clean

And he stayed so close beside me  
Purring like a pussy

Eeehh

Hell's bells I wouldn't leave you  
My my I wouldn't leave you behind

When's the parade I asked his weepy face  
It's when we're walking side by side my friend

And you stayed so close beside me  
Purring like a pussy

Eeehh
