

Our clever hopes have expired (expired)  
Unbitten by desire (desire)  
Explain it, I did not get it, we told each other we were dying  
To be left as one (as one)

I'm gonna do you a favor  
I'm gonna show you now  
You're walking into the danger  
Of bringing your man down

Cry a little, cry a little harder  
Cry a little for your man  
Try a little, try a little longer  
Like I know you can

That's how we dress for a ruin  
And what we never did, we won't be doing  
You explain it, I don't get it, we told each other we were dying  
To be left as one

I'm gonna do you a favor  
I'm gonna show you now  
You're walking into the danger  
Of bringing your man down

Cry a little, cry a little harder (cry a little)  
Cry a little for your man (cry a little, cry a little)  
Try a little, try a little longer (try a little, try a little)  
Like I know you can

Cry a little, cry a little harder (cry a little, cry a little)  
Cry a little for your man (cry a little, cry a little)  
Try a little, try a little longer (try a little, try a little)  
Like I know you can

Well, she's on my head  
Doesn't matter yet  
Enough to (????)
