

Love has a meaning  
A meaning we should know  
What it is is that something's wrong  
Because of where it is we go

Chorus:  
Who here smiles?  
Who here sobs?  
Who here looks to see what's lost?  
Who here lies?  
Who hears truth?  
Who here even wants to choose?

Born with a little room  
Born with some light  
You who have all a pleasure cause  
Where did you come from?

Chorus

Oh, have you gone and missed this call  
What it is is that something's wrong  
Because it wasn't here before

Chorus

Get back down  
Get back down  
Get back down to the ground  
Get back down  
Get back down  
Get back down where you belong
