

Say My Name

54-40

Here am I bent and weary on
Compromised by a lonely heart
All I ever wanted to be was something like myself
What ever happened to me, someone get me help

Say my name, call me over
Say my name, long as you love me it's alright

You say sadness, sadness filled my eye
Could be alone now, gone I cannot hide
All I ever wanted to be was something like myself
You the one that happened to me, now I'm gone to hell

I see my baby walking by
I see she's leaving me behind
Baby, baby - baby don't be so mean
You the meanest thing that the world has ever seen

May you please hold me to the morrow
Let it be all a case of rain
All I ever wanted to do was have some love
Someone and it had to be you
You had to take me on
