

Take Me Out

54-40

Seeing the train roll away, I'm going out of my head here
All this singing, all this ringing, makes me want to say
Take me out, take me out of this life, take me out of this hole
Take me out tonight

Always looking out, I know what I know what I'm supposed to see
But too many days and too many ways of waiting for a taste
Take me out, take me out of this life, take me out of this hole
Take me out, take me out tonight

Don't you forget me, even when there's nothing left
Don't you forget me, in and out of love, take me out

Always looking out there, hoping to find something better somew
here
And I'm looking high and I'm looking on, I see a river I want o
n
Take me out, take me out of this life, take me out baby
Take me out tonight, you were the one to explain things
You were the one that paints me I am caught in a prison waiting
for release

Don't you forget me even when there's nothin' left
Don't you forget me, in and out of love, take me out
Take me out of this life, take me out baby, take me out tonight
