

Trapped inside myself  
I often wonder what the hell  
Me and my mind so aligned  
Take it  
Take it  
Leave it all behind  
What is the name for a word you cannot love?

Outside my life  
I imagine what it's like  
To be afraid all night and day  
There's a lesson  
So listen  
To what they have to say  
What is the name for a world you cannot love?

I see someone I like  
I don't expect to get it right  
Language that was the same  
It's now a game  
I can't love you  
Like you  
For what you might have done  
What is the name for a world you cannot love  
What is the name for a world you cannot love  
What is the name for a world you cannot love?
