

Bieber Fever

5Angels

I get dizzy like a rocking roller coaster ride
when I look into your
dark hypnotic angel eyes
Boy, you're my superstar
Sweet like candy bar
You're so amazing you
deserve to win a Nobel prize

Doo-wap You're the only one for me
Doo-wap I feel you chemistry
Doo-wap you'd make me sell my soul

You and I should be together
She's OK, but I'm much better...

Oh Justin Beep Beep Bieber
You know you give me fever
Your music and your passion
cause a chemical reaction
Justin Beep Beep Bieber
You know you give me fever
I followed you on Twitter
You will see I'm not a quitter...

Up and down, I feel a million butterflies
Up and down, they lift me up to paradise
Up and down, jumping to the beat love
Up and down, I can never ever get enough!

Come on everybody take a bow...wow
Come on everybody for the cutest
boy arround!

I go crazy when I listen my favorite song
Oh baby, baby
then I close my eyes and sing along
Boy, you're my superstar
Sweet like candy bar
You're so amazing, you're an angels,
You're the one I want

Doo-wap You're the only for me
Doo-wap I feel you chemistry
Doo-wap you'd make me sell my soul

feel this way again.
