

Make it up

5Angels

I saw you with your mother
We just ignored each other
So sad, What happened?
We always danced together
we were friends forever
Don't know who spread the rumors
but with some sense of humor
We can forget the problems we had
don't need no stormy wheater!

Wrong, wrong, who is wrong
when no one is right?
Don't want to see this hate in your eyes
We know we need each other
We're like the Jonas Brothers
Wrong, wrong, who is wrong
at the end of the day
Just give it chance
And we'll be OK
Let's put and end to this sad story
don't worry.....

Who was wrong and who was right?
Life ain't always black or white
Let's make it up up up
No need to fight
Who was right and who was wrong?
Can't we simply get along
Let's make it up up up
and sing this song

Let's prove the world won't tame us
No boy would ever change us
no you, not me
we will never fall apart
for same stupid jealousy

I know you understand me
WE were born to win a Grammy
They say we're mind, sick in the head
but we're as normal as can be

Wrong, wrong, who is wrong
when no one is right?
Don't want to see this hate in your eyes
We know we need each other
We're like the Jonas Brothers
Wrong, wrong, who is wrong
at the end of the day
Just give it chance
And we'll OK
Let's put and end to this sad story
don't worry.....

Who was wrong and who was right?
Life ain't always black or white
Let's make it up up up

No need to fight
Who was right and who was wrong?
Can't we simply get along
Let's make it up up up
and sing this song

Wrong, wrong, who is wrong
