

Burn Some Gasoline

69 Chambers

Enticed with plastic love
Standing on unsolid ground
Tempted to think it's enough
Hell, my head keeps spinning round
No these roots aren't place-bound
Gravity pulls me down

Untie me ritual
Give way restraint, let go
Loss is inevitable
Let's burn some gasoline
Burn down the whole damn city
Destroy that part of me, now that I'm

[Chorus:]

Free, now that I'm free, burn gasoline
Time has no meaning away from home
Free, now that I'm free, burn gasoline
Life changes we're bound to pass like foam

Burn burn burn

The engine's running loud
Say nothing incipient doubt
Don't look back, make up ground
Last drops of gasoline
Nothing's the way it seems
Don't matter where I've been, now that I'm

[Repeat chorus]

Burn burn burn

We who thirst never find fill
Lust unleashes a deathly will
We can't sit still
We can't sit still
We can't sit still

[Repeat chorus]

Let's burn some gasoline
