

## Judas Goat

69 Chambers

Is your life a mystery  
Come follow and you'll sure see  
The illusions of today  
A shadow falling, come what may

Never more, never more  
There's nothing to be thankful for  
On the killing floor  
Never more, never more

Come follow me into the fields  
A soft excess you can't but yield  
No sense in putting up a fight  
We're left here with no chance of flight

This is our common fate  
Judas goat

Give yourself to me  
If your life's a mystery
