

Something about you
I can't live without you
Want u to be with me-yeah
Got me loosing control
And I can't let u go
Here is where u need to be-yeah

Feeling your energy
And it's killing me
My baby I like your steeze
You be moving me
Soo drastically
I'll do anything u please

Only you on my mind
And it's hard to define
What makes me into u
Just like Venus and Mars
We were written in the stars
Thinkin' we should continue

Maybe I should just face it
Cause boy I can't take it
This can't be circumstance
I'm in disbelief so many feelings
And love deserves a chance

Feelings
Nothing but these funny funny
Feelings
Everything about u is appealing
Nothing but these funny
Feelings- Amazing
Feelings
Infatuation got me doing strange things
We should think about forever
Maybe- nothing but these funny funny
Feelings- feelings

From the limp in ya walk
And the slang in ya talk
Just your style over all is sweet-yeah
From your head to your feet
Kissing u makes me weak
You make me wanna be sneaky

With your sexy eyes
That I can't deny
Got me hypnotized soo deep-yeah
You're me type of guy
Hittin' u gets me high
Single love affair with me

I just wanna be
Your only Queen
On the thrown of eternitiy-yeah
Cause our chemistry

Is amazingly
Overall a growing seed

I can't run from my heart
You were mine from the start
Just to deal I'll you breath
Whatever you're just my type
Gotta be your wife
Cause I need you in my life

I can't run from my heart
You were mine from the start
Just to deal I'll you breath
Whatever you're just my type
Gotta be your wife
Cause I need you in my life
