

New in the neighborhood, looking good to me,  
She's by your side, I can't deny,  
Got to know your name.  
You turn around, you see me,  
Now I think its love I've found.  
My friends think I'm crazy,  
But I don't care cause baby,  
I get down...

I get down like dat,  
Be like dat,  
I won't fret,  
She's no threat to me.  
(It may seem wrong, it's all about what I want and sometimes...  
)  
Can I be like dat,  
It's on like dat,  
I'm gon' get ya,  
If I like what I see.

Your on my mind I think your fine,  
But your with her (And I don't care),  
Can't let you get away.  
I want you just because she pulls you,  
Turns you, trys so hard to take your eyes away.  
It's too late and you know it,  
'Cause I got you in a daze,  
I get down...

Tell me am I wrong,  
To go for what I like?  
When she holds you tight,  
You want me, it's only right.  
And I don't care,  
Her name's not stamped on you,  
That means she don't own you,  
I'm gonna make you mine.
