

Everything you do is gonna hurt you  
(you should know that's)  
just how things are boy you can't have me  
(don't mistake me)  
for the average girl I don't come easy  
(you gotta work for it)  
can't be wasting my time  
you don't deserve me- see there is no way

You want something  
But you're talking bout' nothing  
One day you'll be wishing  
You'll come to realize there's no way  
You can get it  
Ya tired game you should fix it  
Must've got me twisted  
Ya same old lines I can't take  
No way  
(La, la la la la la la)

My game is so tight you can't fade me  
(I'm not that type)  
To come a dime a dozen baby yeah  
(check yourself and)  
Go find somebody else don't play me  
(let me be real)  
It's irritating I can't fake it, won't you spare me..

No Way, No way  
You can't keep on buggin' no way, no way
