

Where do you think it goes
Sunday school is closed
Army jacket don't fit
Heart attack won't quit

Sneaking out again
Curfews never win
Army jacket don't fit
Heart won't quit

And it's so real
He's seeing things he's only seen in stained glass before
And it's so real
You know it
Because you know it

Where do you think you hide
Terrified inside
Army jacket don't fit
Heart won't quit

And it's so real
He's seeing things he's only seen in stained glass before
And it's so real
You know it
Because you know it all

And it seems down to earth
Must have been something at birth
And you know how it goes
Everyone puts on a show

Can't contend with those
In a league with all the pros
Army jacket don't fit
Heart won't quit

And it's so real
He's seeing things he's only seen in stained glass before
And it's so real
You know it
Because you know it all

And it seems down to earth
Must have been something at birth
And it goes round and round
Everyone looks at the ground
And you know how it goes
