Got to where you're going Head back home

Time for what you're showing Leave alone

Impress the debtors Leave alone

Got to where you're going Now headin' home

You're bad You leave around the town(?) You won't get angry And you won't start a war With me

It hurts so much To notice things Are going Your way She won't get angry She won't start any Until you stop It hurts so bad Until you want it alone (?)
