

It's Now

77 Bombay Street

Im taking a look out of my cave
there are flowers
and I wonder
where have I been

Im looking around
feeling the rain on my shoulders
and I wonder
where have I been

Its now
now its the moment
now its the time
and my chance to get out of this wasted black hole 2x

I lie in the sun
and joying the cool summer breeze
and I wonder
what have i done

I dance on the grass
I swim in the lakes
and Im smiling
and I wonder
what have I done

Its now
now its the moment
now its the time
and my chance to get out of this wasted black hole 2x

Im taking a look
out of my cave
there are flowers
and I wonder
where have I been

Its now
now its the moment
now its the time
and my chance to get out of this wasted black hole 3x
