LOW ON AIR

77 Bombay Street

Diving in Koh Phi Phi, beautiful reefs
Diving with the sharks and the turtles
Watching Triggerfish beautiful colors
Diving with a big whale called Parker

Oh, that\'s the sunny side
That\'s the fun side
Oh yeah that\'s the sunny side of my life

But when I get back home
When I get back home
There\'s always something going wrong

I\'m running low on air
I\'m running low on air right now
Need to go up to the surface
Need to get a new tank with a new regulator
Help me find my way to the surface
And I\'m still going down, something pulls me right to the ground
This feeling\'s tearing me into pieces
I\'m running low on air, running low on air right now
Need to go up to the surface

Living in a bubble, deep down underwater
Playing with the orcas and dolphins
Dancing with the mermaids, singing with the blue whales
Party with the fish in the ocean
But now I\'m sitting in my office, drinking hundred coffees
Every day is just the same

I need to go back to Koh Phi Phi, out of this city
I really wanna go back again

I\'m running low on air
I\'m running low on air right now
Need to go up to the surface
Need to get a new tank with a new regulator
Help me find my way to the surface
And I\'m still going down, something pulls me right to the ground
This feeling\'s tearing me into pieces
I\'m running low on air, running low on air right now
Need to go up to the surface

I\'m running low on air
I\'m running low on air

Whales, whales lead me to your secret place
Whales, whales take me to your place

Whales, whales lead me to your secret place
Whales, whales take me to your place

I\'m running low on air
I\'m running low on air right now
Need to go up to the surface
Need to get a new tank with a new regulator
Help me find my way to the surface

And I\'m still going down, something pulls me right to the ground
This feeling\'s tearing me into pieces
I\'m running low on air, running low on air right now
Need to go up to the surface

I\'m running low on air, running low on air...
I\'m running low on air...
I\'m running low on air, running low on air...
I\'m running low on air...
