Wake Me Up

77 Bombay Street

Gonna save the world today
Aliens take me away
The whole world seems to be a disaster
I run run run but I can't get faster

I can fly when I'm spreading my arms and
I never die and I never get harmed and
I'm gonna save the princess and the queen
And all I wanna do – forever dream

Oh, wake me up in the morning
Until then my life isn't boring
And if you don't mind then let me stay
I'd rather keep sleeping all day

I'm gonna make it to the mountain top
I'm gonna do it like James Bond, I'm a lover
Riding on the back of a blue dragon breed
Diving in the ocean where the mermaids meet

I can fly when I'm spreading my arms and
I never die and I never get harmed and
I'm gonna save the princess and the queen
And all I wanna do – forever dream

Oh, wake me up in the morning
Until then my life isn't boring
And if you don't mind then let me stay
I'd rather keep sleeping all day

I'm flying on like this song around the world
While I am staying right here
In your bed, let the fever fairy pop my head
And if you can catch up with me
We're gonna save the world
If you just lie in my arms
No one stops us from flying up to the stars

So wake me up in the morning
Until then my life isn't boring
And if you don't mind then let me stay
I'd rather keep sleeping all day

Wake me up in the morning
Until then my life isn't boring
And if you don't mind then let me stay
I'd rather keep sleeping all day
I'd rather keep sleeping all day
