

# Into Forever

7Days

I call your name  
When I turn off the light,  
I say your name  
When we enter the night

No I won't pretend  
That I don't have my doubts  
No I'll face the end  
With fear in my eyes

What should I do  
to find you?  
I see pitfalls everywhere  
Where is the path  
That holds you  
And that I'm searching for?

From my fate I cannot flee  
Through dark and light  
I've always strayed

Oh it has been said  
The truth shall set you free  
But we lie and we pray  
Into the dark we flee

What should I do  
to find you?  
I see pitfalls everywhere  
Where is the path  
That holds you  
And that I'm searching for?

In solitude I make my way  
Through dark and light  
Into forever

What is your goal?  
What is your purpose?  
Blindly you follow for promised land...

From my fate I cannot flee  
Through dark and light  
I've always strayed  
In solitude I make my way  
Through dark and light  
Into forever  
From my fate I cannot flee  
Through dark and light  
I've always strayed  
In solitude I make my way  
Through dark and light  
Into forever
