

With You Forever

7Days

I've tried to run away from you
I've tried to hide my face from you
I've tried to be what I am not
But now I see that I am lost

I've tried to walk that extra mile
I've tried to reach above the sun
But I always look at what I have
Don't want to lose it all again

See me as I am
No, not more
Take me for what I am

Call my name and save me
Wanna be with you forever
Wake me up, console me
Wanna be with you forever
Wanna be with you forever

Go ahead break me one more time
Go ahead and kill me one more time
Go ahead and drown me one more time
Don't want to lose it all again

See me as I am
No, not more
Take me for what I am

Call my name and save me
Wanna be with you forever
Wake me up, console me
Wanna be with you forever
Wanna be with you forever
I wanna be with you forever

Call ma name and save me
Wanna be with you forever
Wake me up, console me
Wanna be with you forever
