

Nothing to Give

7eventh Time Down

One more day
I'm running in fumes
So I steal some time
Alone with you in this room.

I'm so empty deep inside
Jesus hear my cry

If you don't fill me
If you don't meet me
If you don't help me
The truth is
If you don't fill me, I've got nothing to give
Oh, I've got nothing to give

Everyone is needing something from me
This take, take, take
It's got me down on my knees
I'm on my knees

And if I try
To do it all on my own
We both know
How that's gonna go

If you don't fill me
If you don't meet me
If you don't help me
The truth is
If you don't fill me, I've got nothing to give
Oh, I've got nothing to give

I will stand strong
I will press on
You are my hope
I'm never alone
So when I stand strong
And when I press on
I know it's your strength and not my own

I've got something to give

With you I've got more left to give
To give
With you I've
With you I've
With you I've got more left
