

Fuel Set

8 Foot Sativa

Trigger pen click bullet thrases, cutting lasers
Time bombing tick, slashing throats on concrete pages
Fuel set to explode, major panic make a train
Come off it's railroad, styles volcanic times insane

Crushing earthquakes, The fakes retreat
Nations admit defeat
The territory tortured soared in killing and deceit

Damage on call, place your orders, smash the borders
That divide us all, it's that chunky sound transporters
Axing down the wall getting people high sativa
Eight feet f**king tall, unstoppable cannon ball

Crushing earthquakes, The fakes retreat
Nations admit defeat
The territory tortured soared in killing and deceit
