

## Joyboy

88 Fingers Louie

Sit down and take a listen a story  
That's my confession of how you came into my life  
I wasn't sure if I was ready, I didn't think you were here already  
Six weeks before the estimated time

Mom and I were holding hands we didn't think about the demands  
With a tap on my right shoulder I looked up and felt so much older  
You came along and I was there, I never felt so happy  
Through all the hardship and despair I never felt so happy

My baby boy, promise to never make you unhappy  
You're my best friend, because you make me happy  
And all the times that I screwed up and lost my temper  
I hope you haven't given up, we're gonna make up for lost time

To spend some time together who says it's now or never  
I want to show the world you're here, you're here and  
As you and I walk holding hands we didn't think about the demands  
Having fun and acting crazy, I love you my bouncing baby

You came along and I was there, I never felt so happy  
Throughout the hardship and despair, I never felt so happy  
My baby boy, you're my best friend, because you make me happy  
As you and I walked holding hands, we didn't think about the demands

Having fun and acting crazy, I love you my bouncing baby boy  
I love you my bouncing baby boy, I love you my bouncing baby boy  
I love you my bouncing baby boy, sleep tight my bouncing baby boy
