

I can't imagine any human being slapping me
I got so high that I didn't let you get to me
Ignored my problems with the help of my little toy
I'm losing all that's close and I don't even wonder why

And I don't care if I'm alone
I'm not myself unless I'm stoned

I'm in my little world, no one can shut me out
Don't try to talk to me, I'm high and there's no doubt
My mind has been through hell and back and I don't care
I'm in my little world, it's too bad you're not there

I start to freak on how the way things used to be
You say you're happy but there's something you're not telling me
I'm always fucked up and that really seems to bother you
Don't ever want to change there's nothing you can say or do

And I don't care if I'm alone
I'm not myself unless I'm stoned

I'm in my little world, no one can shut me out
Don't try to talk to me, I'm high and there's no doubt
My mind has been through hell and back and I don't care
I'm in my little world, it's too bad you're not there

I'm in my little world, no one can shut me out
Don't try to talk to me, I'm high and there's no doubt
My mind has been through hell and back and I don't care
I'm in my little world, it's too bad you're not there

I can't imagine any human being slapping me
I got so high that I didn't let you get to me
Ignored my problems with the help of my little toy
I'm losing all that's close and I don't even wonder why

Do it again!
