## **Give It Up**

Don't you give it up for me Don't you open up your soul And drown in your misery We all know you don't want help You want company Don't you give it up for me

Just how long can you bleed? Just how long do you need? Just how long can you bleed?

Don't you give it up for me Bandage up your palms again No one can see the blood but you Won't you get up off your knees? It's time to run Don't you give it up for me

You can't say Cuz you're so afraid That all that you have Is all you deserve You're so afraid All that you have Is all that you deserve

Maybe it is... Baby it is 8mm
