

Life Is Good

8mm

Whenever I roam
I hear your heartbeat calling me home
Adventures high, mountains climbed
Your sighs keep me safe and warm

Shining waves and a distant shore
Lead me right back to your door
Big open skies and a shining star
Just light the way to where you are

It don't matter how far I've run
Cuz you'll be right there waiting
It don't matter how far I've come
You know just who I am
No matter how lost, how near, how far
I hear you calling me back

Wherever I go
I leave bread crumbs on the road
Paper planes and model cars
With jumps from Jupiter to Mars
Front seats and magic shows
Secrets kept and curtains closed
Claps and bows and your "Bravos!"
And you're the only one who knows

It don't matter how far I've run
Cuz you'll be right there waiting
It don't matter how far I've come
You know just who I am
No matter how lost, how near, how far
I hear you calling me back

Whenever I'm down
And black creeps in from all around
I know it's a fact
That you've always got my back
Pirate ships and dragon's lairs
They'll have to find someone who cares
Captain Hook and Mr. Smee
You know they'll have to get through me

It don't matter how far I've run
Cuz you'll be right there waiting
It don't matter how far I've come
You know just who I am
No matter how lost, how near, how far
I hear you calling me back

Life is good, even when it's hard
I hear you calling me back home

Na na na na

Life is good, even when it's hard.
