

## Ayo

98 Degrees

I came here on the mission,  
And I ain't leaving here alone  
So baby, tell me where to go  
Can't make my exit without you.

Your friends don't even know you're gone  
You got a man, who needs 'em now?  
Right now it's me and you, come on,  
Forget these people around you.

We're gonna make this all night  
Let's keep it going till sunlight.  
They try and stop us, we gonna fight  
Let's do it all the way wrong till it's all the way right.

So lose yourself in it and say ayo  
If you're down with it say ayo  
DJ keep spinning like ayo  
Cause we ain't finished, ayo.

Know you don't wanna miss this, right  
I see the burning in your eyes.  
Your body's giving me the signs  
No use in you trying to fight it.

We're gonna make this all night  
Let's keep it going till sunlight.  
They try and stop us, we gonna fight  
Let's do it all the way wrong till it's all the way right.

So lose yourself in it and say ayo  
If you're down with it say ayo  
DJ keep spinning like ayo  
Cause we ain't finished, ayo.

Now I hope you ain't tired,  
Cause this fire's taking over the floor.  
So throw your hands in the air,  
Let me hear you say ayo.

We're gonna make this all night  
Let's keep it going till sunlight.  
They try and stop us, we gonna fight  
Let's do it all the way wrong till it's all the way right.

So lose yourself in it and say ayo  
If you're down with it say ayo  
DJ keep spinning like ayo  
Cause we ain't finished, ayo.
