

## Christmas Wish

98 Degrees

Oh girl  
Christmas ain't the same without you  
Waiting for the day I'll see you again

It's Christmas night  
I'm by the fireside  
Wishing that you and I  
Could share our love one last time  
And baby I, I need you near me  
Right here with me for eternity (oooh)  
Exchanging gifts of warmth and tenderness  
Holding you close, this is my Christmas wish

Christmas ain't the same without you  
It just doesn't feel like it used to  
Waiting for the day I'll see you again (until I see you again)  
I hold my breath and pray to the stars for you till then

Baby I have some mistakes that I do regret inside  
(Why can't we give one more try?)  
I loved you girl with all my heart  
Right from the start  
Thought we'd never part (oh no)  
Craving your touch and your eternal bliss  
That is my only Christmas wish

(I hold my breath and pray to the stars for you till then)  
(Christmas ain't the same without you, the same)
