

## Completely

98 Degrees

I gotta come clean with you baby  
Do everything to make you see  
I gotta be with you tonight  
The thought of it's consuming me  
Your body next to mine  
Let's not waste any time  
Baby just give me a chance  
We could make some  
sweet romance tonight  
Completely into you  
Discretely I will prove  
That I can do  
What you need me to do for you  
For you

Not that you are here with me  
Every kiss with you  
Is like a dream come true  
It's ecstasy  
We'll take it even further  
If you say that it's okay  
Just let yourself go  
We'll take it slow  
Let's go all the way tonight

Baby, baby let's dim the lights  
Set the mood  
Make you feel alright  
We'll take it nice and slow  
I've got to show  
The way that love is supposed to go
