

## Girls Night Out

98 Degrees

She don't wanna wait no more  
Ready to get on the floor  
(It's on tonight)  
Calling up all of her friends  
Time to burn it down again  
(And come to life)  
Look how she do that sexy dance  
She got every single man  
Up in here wanting to lose his mind  
She got her girlfriends all around  
Looking good and getting down, Tonight  
I really think I love

Girls Night Out  
So many women,  
looking good in the place right now  
Makes my head spin 'round  
Cause each one is sexy, Help me  
I wanna love 'em all down like  
Oh, want that girl, and that girl, and that girl  
Oh, want that girl, and that girl, and that girl  
Girls Night Out  
So many women,  
looking good in the place right now

She put on that real tight dress  
Cause she wanted to impress  
(and catch my eye)  
And that one's looking dangerous  
But I'm kinda curious  
(Is that a crime)  
Look how she move her body slow  
When the bass is booming low  
Got a man about to lose his mind  
She got her girlfriends all around  
Looking good and getting down, Tonight  
I really think I love

Look at them brunettes and blondes  
and every other style women (women)  
Short, tall, thick, small  
All of them winning (winning)  
I love you all, and I  
Can't get enough, see I  
Wish I could hold everyone of you in my arms
