

# Hush, Hush

98 Degrees

Just that look, girl, it's all you got to say  
I think you're real, girl, just the one you wanna taste.  
If you feel and you need it, then make me believe it  
And let go, I swear you won't be sorry.

You're second guessing me so sexy,  
You know that I'll never tell.

Hush hush, love is such a bad girl undercover,  
You and me, everybody needs a secret.  
Hush hush, love to see my good girl for another  
You and me, everybody needs a secret.

It feels so good to be dangerous,  
Don't lose the rush, baby hush hush.

Girl, you're busted, yeah, I got your name  
I can be trusted, just keep playing the game.  
You can hide it tonight how you gonna find it  
I lay low, do anything you want with me.

That's why you are so sexy,  
Don't give yourself away.

Hush hush, love is such a bad girl undercover,  
You and me, everybody needs a secret.  
Hush hush, love to see my good girl for another  
You and me, everybody needs a secret.

It feels so good to be dangerous,  
Don't lose the rush, baby hush hush.

Give me a sign and I will every need I can fill  
If you want me, just pull me closer.  
A word from your lips, gotta use fingertips to tell me you can't get enough,  
It's only my touch.

We got a secret and I'm gonna keep it  
As long as we're sneaking they'll never know.  
Don't give them a reason, they might hear us speaking  
Baby, baby, keep your voice down.

Hush hush, love is such a bad girl undercover,  
You and me, everybody needs a secret.  
Hush hush, love to see my good girl for another  
You and me, everybody needs a secret.

It feels so good to be dangerous,  
Don't lose the rush, baby hush hush.
