

No Part Of You

98 Degrees

How could you tell me I'm not crazy over you oh oh
Gave you my money when your bills were over due oh oh
Ain't got no time for all this mess you put me through, no oh
You make me sick, it's like you gave my heart the flu oh oh

Now I'm chillin cause you turned me cold
Bye, bye, stay left through the exit door

I want no part of you, no part of you, no part of you, no part
of you
Oh, I'll burn every bridge so there's no going back to you
I want no part of you, no part of you, no part of you, no part
of you
No I won't say goodbye, there's nothing good about you

You wear your bullshit like its written on your sleeve oh oh
I hang my head because I fell for your disease oh oh
Our stupid fire burned me to the third degree so oh
I wish I could wake up and you'd be just a dream oh oh

Now I'm (now I'm) chillin cause you turned me cold
Bye, bye, (bye, bye) stay left though the exit door

I want no part of you, no part of you, no part of you, no part
of you
I'll burn every bridge so there's no going back to you
I want no part of you, no part of you, no part of you, no part
of you
No I won't say goodbye, there's nothing good about you

Oh I'm not crazy am I and oh it's too late for next time

I want no part of you, no part of you, no part of you, no part
of you
I'll burn every bridge so there's no going back to you
I want no part of you, no part of you, no part of you, no part
of you
No, I won't say goodbye there's nothing good about you

How could you tell me I'm not crazy over you oh oh
Gave you my money when you bills were over due oh oh
How could you tell me I'm not crazy over you oh oh
You make me sick, it's like you gave my heart the flu
